- 2-way footswitch included

Introducing the dark side of the HT pedal range HT-METAL!

The latest addition to our highly successful range of valve drive pedals delivers 2 channels of ultra high gain metal, guaranteed to lower the tone of the neighbourhood.

Utilising the same housing and unique switching operation as the best-selling HT-DUAL, this new pedal is sure to be a hit.

Specification

- Genuine valve design
- Operates at 300V HT
- Cascaded valve gain stages
- Responds like a valve amp
- 2 channel operation
- Clean, Overdrive & super high gain Lead modes
- Unique switching operation
- Unique enhanced tone controls
- Exclusive Infinite Shape Feature (ISF)
- Fully equipped for stage or studio
- Speaker emulated output
- High integrity buffered bypass
- Power supply included
- Silent switching
